

County Road 600N Road Resurfacing 7/20 to 8/31

This year Battle Ground received another Community Crossings Matching Grant to resurface 600N between SR43 and Prophets Rock Road. Signs announcing lane restrictions will be in place soon and the detour will begin as early as July 20. The new road should be ready mid-September.

During the project, travel will be limited to one lane and heavy through trucks will be prohibited. Watch carefully for signals and be mindful of slow and stopped traffic. Arrangements may need to be made for date/time access for local deliveries that are not passenger-type vehicles.

This project uses a specialized asphalt that is very durable, however requires a curing period to achieve its service life potential. If there is no rain delay, application and curing will be August 1-17.
